

The perfect hyaluronic acid cream **FOR SERIOUS RESULTS**

Give your skin a real treat with a luxurious cream that contains powerful ingredients to help nourish and plump. By **Rebecca Fearn**

As we age, skin can feel tight, dry and unhealthy.

A number of factors can contribute to this and the changing seasons do not help. Depleted levels of hyaluronic acid – a sugar molecule that retains an impressive 1,000 times its weight in water – deep in the skin can also contribute to dryness.

As well as lifestyle changes such as drinking more water, using nourishing ingredients in skincare can

really make a difference. These ingredients include hyaluronic acid, which maintains skin moisture, helping to keep our faces looking younger, healthier and plumper. For the autumnal season, a deeply nourishing moisture cream is the best formula to incorporate hyaluronic acid, owing to its velvety texture and comforting finish. This is where Caudalie's Resveratrol [Lift] Face Lifting Soft Cream comes in.

REASONS TO USE CAUDALIE'S RESVERATROL [LIFT] CREAM

Caudalie Resveratrol [Lift] Face Lifting Soft Cream, £42

1 Patented technology
Featuring a newly patented technology in skincare (a combination of vine resveratrol and micro hyaluronic acid discovered by a team at Harvard), this cream delivers a potent dose of hyaluronic acid deep into the skin and can help to kick-start its natural reproduction in the skin.

2 Totally fuss-free
The Resveratrol [Lift] Face Lifting Soft Cream contains a blend of camomile flowers, lavender water, petitgrain, thyme, sage and fresh mint.

Infused with the sweet smell of herbal tea, the cream glides on beautifully. Its natural emulsifiers

create a 'second skin' feel to leave your skin as soft as cashmere.

3 Tested efficacy
When it comes to efficacy, the results from clinical tests speak for themselves: every person who tested Face Lifting Soft Cream reported noticing an appeared improvement in skin firmness. What's more, 93 per cent said it left skin looking lifted and 88 per cent said their skin appeared denser.* This is a true all-rounder.

Hyaluronic acid helps to keep skin feeling firm, lifted and smooth – and Caudalie's groundbreaking new cream will see you right through to winter and beyond.

*42 WOMEN BETWEEN 40 AND 65, 84 DAYS, 1 DAILY APPLICATION.
